DETAILED ACTION

1. This is in response to communication dated August 12, 2004. Amendments to claims 1, 2, 6-10 and 13 have been entered. Rejections of claims 1-9 made under second paragraph of 35 USC § 101 are withdrawn in view of the claim amendments. Also rejections of claims 10 and 13 made under second paragraph of 35 USC § 112 are withdrawn in view of the claim amendments. Claims 1-9 have been canceled as discussed in the Examiner's amendment below. Claims 10-14 are currently pending in the application.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

3. Authorization for this examiner's amendment was given in a telephone interview with Joseph M. Kuo on December 9, 2004.

The application has been amended as follows:

Please cancel claims 1-9 without prejudice.

Allowable Subject Matter

4. Claims 10-14 are allowed.

5. The following is an examiner's statement of reasons for allowance:

6. The closest valid prior art (Silverman US Patent 5,924,082) discloses a method for selling an asset over a computer network comprising a plurality of computers in communication with one another, the method including the steps of storing in computer

Art Unit: 3624

memory buyer information for a plurality of potential buyers, the buyer information for each of the plurality of potential buyers including a buyer profile code, retrieving from computer memory asset information for the asset to be sold, the asset information including a first asset restriction, retrieving from computer memory the buyer profile codes from the plurality of potential buyers and comparing the first asset restriction with the buyer profile codes and determining a first group of authorized bidders from the potential buyers having a buyer profile code matching the first asset restriction.

Even though, the prior art teaches a method for performing the above mentioned steps, the prior art of record fails to teach a tiered method for automatically auctioning an asset over a computer network, the asset comprising government surplus or excess, including the steps of automatically performing a second or additional tier auction if an outcome of the first tier auction is that the asset remains available, including the additional steps of assigning a second or new asset restriction to the asset, comparing the second or new asset restriction with the buyer profile codes and determining a second group of authorized bidders from the potential buyers having a buyer profile code matching the second or new asset restriction and presenting the asset for auction only to the second group of authorized bidders. For these reasons claims 10 and 13 are deemed to be allowable over the cited prior art, and claims 11, 12 and 14 are allowable by dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 3624

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
